SUMMARY

Backend Developer with solid experience in team management and customer orientation, specializing in Node.js and backend technologies. Skilled in building dynamic and scalable web applications with a strong foundation in Angular & React, relational and non-relational databases, and real-time communication. My leadership abilities and problem-solving skills, honed through years of professional experience, enable me to drive innovative solutions effectively. I am seeking a challenging role in an innovative company where I can leverage my expertise, contribute to impactful projects, and continue to grow professionally.

TECHNICAL SKILLS

NodeJs	MongoDB | MySQL | PosgreSQL	HTML | CSS
Typescript | JavaScript | Golang	Socket.io | JWT	React | Angular | Bootstrap
ExpressJs	Vitest | Jest	Git | Github
